## ADA DETECTABLE WARNING PAVER

Oberfield's ADA Detectable Warning Pavers are manufactured in accordance to Paragraph 4.29.2 of the Department of Justice's "ADA Standards for Accessible Design."

According to ADA guidelines:

- A detectable warning is a standardized surface feature, built in or applied to, walking surfaces or other elements to warn visually impaired people of hazards on a circulation path.
- The detectable warning shall extend the full width and depth of the curb ramp.
- The color of the detectable warning surface shall contrast visually with adjoining surfaces, either light on dark, or dark on light.

### Oberfield's ADA Paver Characteristics

- 11 <sup>7</sup>/<sub>16</sub>" x 11 <sup>7</sup>/<sub>16</sub>" x 2 <sup>3</sup>/<sub>8</sub>" or 291mm x 291mm x 60mm
- Stocked in Charcoal and Red-custom colors available upon request
- Meets ADA requirements for slip resistance
- Meets ASTM C936 and ACI 530 specifications
- Truncated dome pattern is produced in parallel alignment
- Paver surface can be sandblasted for an alternative surface texture
- Size decreases installation time
- Little or no maintenance required
- Cleaning and sealing information available upon request
